

Strengthen your college and career readiness programs and deliver highly effective instruction with help from LaGuardia's College and Career Pathways Institute (CCPI). We customize training to meet your needs.

Building off the rigorous teacher training and development model used in the [Bridge to College and Career and NYBEST programs](#) CCPI has developed teacher-led trainings to strengthen programming for adult learners in pre-college and technical training programs.

Teacher Coaching & Curriculum Development

Write Stronger Lesson Plans

Customize curriculum development projects for any size staff, so your professional development initiatives have a lasting impact in the classroom. Design lessons and plan units of instruction with individualized coaching options for teachers. In person and remote coaching options are available.

Program Design to Support High Impact Instruction

Increase Program Success

Focus on the aspects of program improvement that will have the most impact on your students. Work with our trainers to identify goals, build a robust cohort model, improve case management practices and strengthen the pipeline for your graduates to college and careers.

Interactive Workshops to Explore Career Focused Basic Skills Instruction

Increase Student Engagement and Accelerate Skills Development

CCPI workshops immerse instructors and program staff in exploration of best practices for contextualized and integrated instruction. Experience Bridge and NYBEST lessons firsthand and become part of a community of engaged practitioners.

Lab Classroom for Teacher Learning

See Our Students Engaged in Learning

As teachers know, demonstration is one of the best ways to teach and learn. We invite you to visit our classrooms on the LaGuardia Community College campus in New York City and watch our teachers and students in action. A lab class visit will show you how contextualized curricula develops students' academic skills and helps them to prepare for transition to post-secondary education.
