

Placement Test Review Package

In Summer 2012, Cuyahoga Community College (CCC) faculty and staff collaborated to create a review for placement test policy and program. All new students must go through a review for placement workshop before taking the Compass Placement Test. The workshop consists of general information about the placement test emphasizing the importance of taking the test seriously as well as quick reviews of both math and English skills using the Compass sample questions. The entire process takes less than two hours. Students must prove that they have attended the session by showing their completed Test Prep packet at the assessment centers. Early data is showing a significant increase in placement test scores, and thus placement into higher level classes, from this small intervention.

A team from Cuyahoga presented their review for place testing process at the December 2012 Student Success Symposium. To access the packet, click on the following link:
