Spring 2024 Student Success Leadership Institute

What Matters Most in Workforce Programs

February 28, 2024
Expectations are high regarding Ohio’s Community Colleges’ ability to fill the workforce pipeline with qualified employees. Regardless of the industry, there are key components of workforce programs that must be addressed to attract, retain, and graduate students who will experience career success.
You control who you enroll.
Acknowledging that your potential workforce student population includes:

- Students with a negative college experience
- Or Students with a negative college perspective
A metaphor:

The Swimming Lesson
Given the background and perspective of the student we desire to enroll in our programs,

Successful workforce programs intentionally set themselves apart from mainstream college.
Successful workforce programs intentionally set themselves apart from mainstream college.

What can you do right now?
Key components of successful workforce programs

Prerequisites freshly reviewed for validity

- Essential math skills independent of “college level.”

- Placement via interview
Key components of successful workforce programs

Create "automatic" transfer pathways for Career and Technical students.

Use the "you are already approved" marketing device.
Key components of successful workforce programs

Operate with the expectation of credit for employment experience (prior or current employment)
Key components to successful workforce programs

- Focused, short-term course schedules.
- All courses are pass/fail
Key components to successful workforce programs

Quick start, no cost entry term

Start during the summer
Key components to successful workforce programs

Students receive a hands-on, at-home lab kit
Key components to successful workforce programs

Starting a workforce program from scratch.
Sample “chip” program

Sample “chip” program
Semester 2  15 weeks

Course 3: Tech 2

Course 4: CHIP Lab (1- 3 credits)

Or

Course 4: Credit by Current Employment (CCE) applied course.
Sample “chip” program

Credit by Current Employment (CCE) applied course.

Applied Technical Writing
Applied Technical Math
Applied Introduction to Manufacturing
Sample “chip” program

Summary
Total semesters: 5 including first 4-week term
Total credits: 60
Total time: 14 months (includes a one week break between each term)
Key components

Additional suggestions

Advertise free tuition. College does the legwork to access workforce support funding.

**Key components**

**Additional suggestions**

Marketing material – large postcard with dedicated web location.
All courses taught by "technical" faculty.
Create a “credit for current employment” course curriculum.
