**Ohio Community Colleges Praise General Assembly
for Capital Budget Investments**

“Ohio’s community colleges are grateful to the DeWine-Tressel Administration and Ohio General Assembly for their support in the latest state capital budget,” said Avi Zaffini, president and CEO of the Ohio Association of Community Colleges. “These important investments are critical to helping our colleges modernize campus facilities, expand workforce training opportunities, enhance the student experience, and meet the evolving needs of their local employers. With more than 1,000 employer partnerships across Ohio, our colleges will put these resources to work quickly to help more Ohioans gain affordable credentials, move into good careers and continue to strengthen the state’s economy.”
